Reminders

Sheds, Campers and Structures - Must be no less than five feet apart. This applies to structures on your property and structures between you and your neighbor's property. This is a requirement of the Health Department as it would constitute a fire code violation.

Main Electrical Boxes – If you need electrical repair the Board recommends you get a licensed Electrician. If the electric needs to be turned off at the main box which is maintained by camp you must contact Maintenance and schedule to have it turned off. This may take several days as Maintenance has to notify other property owners that will be affected. This will be scheduled on a day that will affect as few people as possible. **(No one other than Mantance should be turning off electric at the Main Box).**

New Office Manager – Beth Moore is our new office manager and has a long and very active history with camp. She is extremely dedicated and hardworking. Beth brings with her an excellent background in office experience and management. We look forward to all the great things she will bring to the position.

First offense violation letters will be mailed with certificate of mailing.

Second offense will be mailed with certified return receipt.

All postage will be at the lot owner's cost.
